

**SJA Kindness Coin Challenge:**  
**PreK - Grade 5**

**“Teach us to give and not to count the cost.”**  
**—Ignatius of Loyola**

We are excited that you are part of our new kindness campaign. You have just received **5** SJA Kindness Coins. The goal is to hand out **one coin per month** through June 2020 to someone outside the SJA community. Each coin is to be given to a person that is doing something kind. It can be given to a coach for helping you. It can be given to a babysitter for creating awesome activities for you to do. The possibilities are endless! Our goal is to spread kindness and goodwill while giving you an opportunity to act out the SJA mission with your positivity and friendliness.

We ask that parents and children hand the coins out together. Not only because we do not want the children approaching strangers, but it is also a great opportunity for both parent and child to act out the mission of kindness together.

After you hand a coin out, feel free to go to Facebook and write a post using the hashtag **#SJAKindnessCoinChallenge** saying when, where and why you handed the coin out. Please tag St. John's Academy. Each semester, we will enter all the posts into a drawing for a special prize. They will also be shared on our Facebook, Twitter, and Instagram pages.
